Coverage Name:

8310 Clipped Blocks

Coverage type: polygon

Export Filenames: blk_Clip.data
blk_Clip.gen

For this geo dataset, two files are provided - 1) a coordinate file and 2) an attribute file. The coordinate file contains the longitude/latitude locations for the geo dataset. This file will have a .gen file extension. The attribute file consists of the attribut information for the geo dataset. This file will have a .data file extension. The id number that can be found in both files can be used to associate the records from the coordinate file with their corresponding attribute records in the attribute file.
